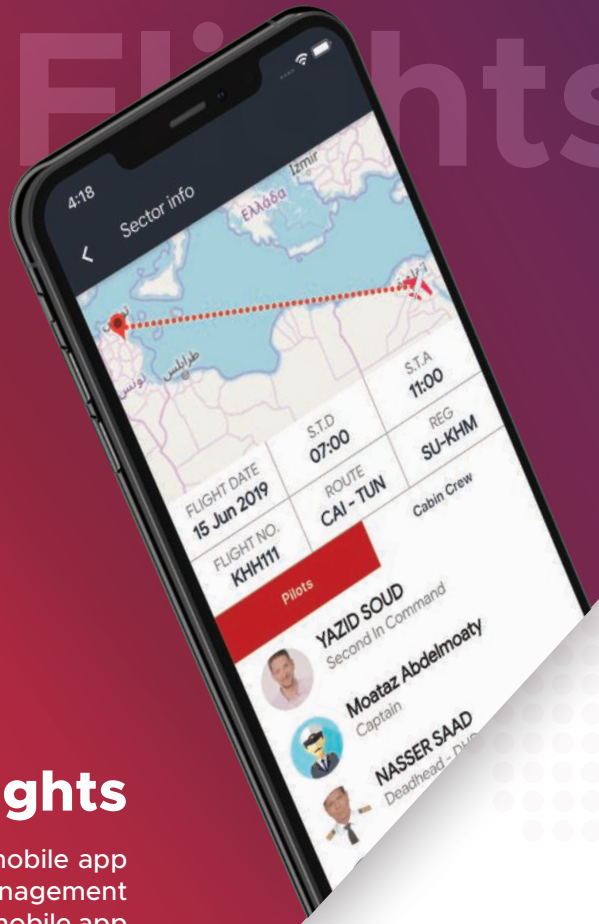
My iFlights Mobile App

by i-Valley Software Solutions



About My iFlights

My iFlights is an integrated mobile app with iFlights (Rostering Management System) to be accessible on mobile app using the power of mobile device capabilities.
i.e. push notifications.

Any user can view his/her scheduel, duty, availability, request vacations, view manauals, circulars, blogs and profile. The view and items varry according to their specific login.

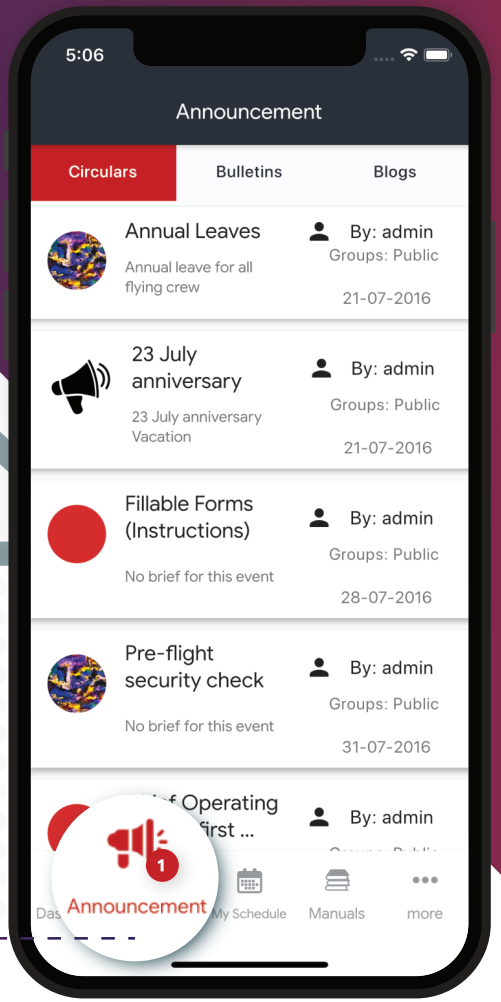
The app has four different logins according to the users' jobs.

4 Different Logins

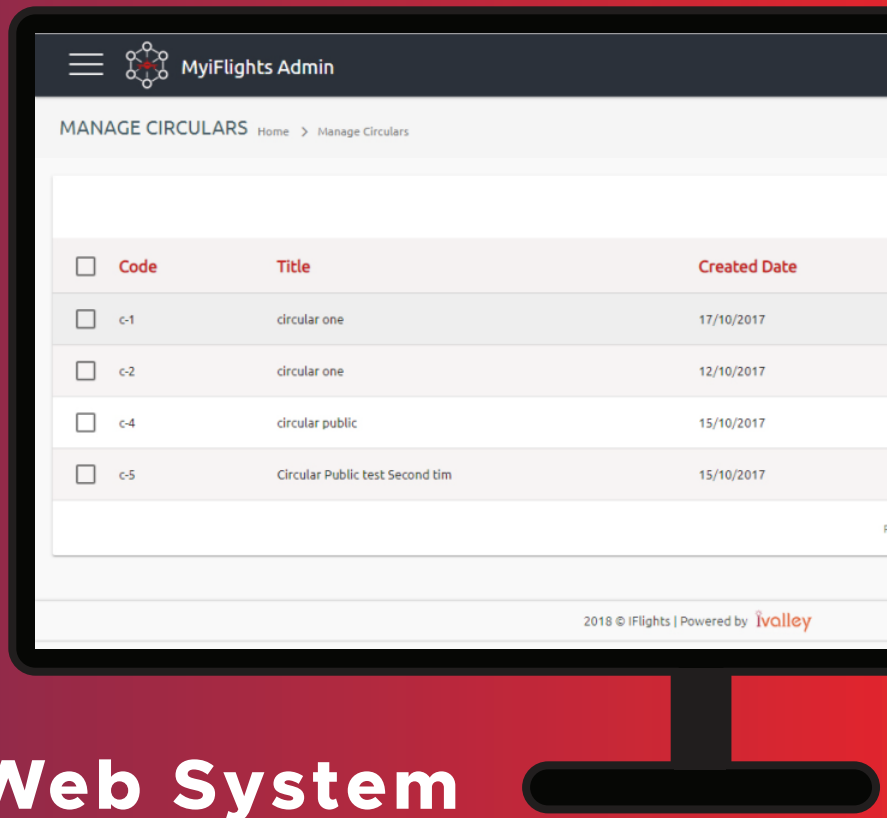
- Fixed Wing Pilot
- Helicopter Pilot
- Cabin Crew
- Company Employee

Live Announcements

Company Circulars - Blogs - Bullions



- **Smart Counters**
  The app lets you know if any *new/unread* announcements or notifications are there.



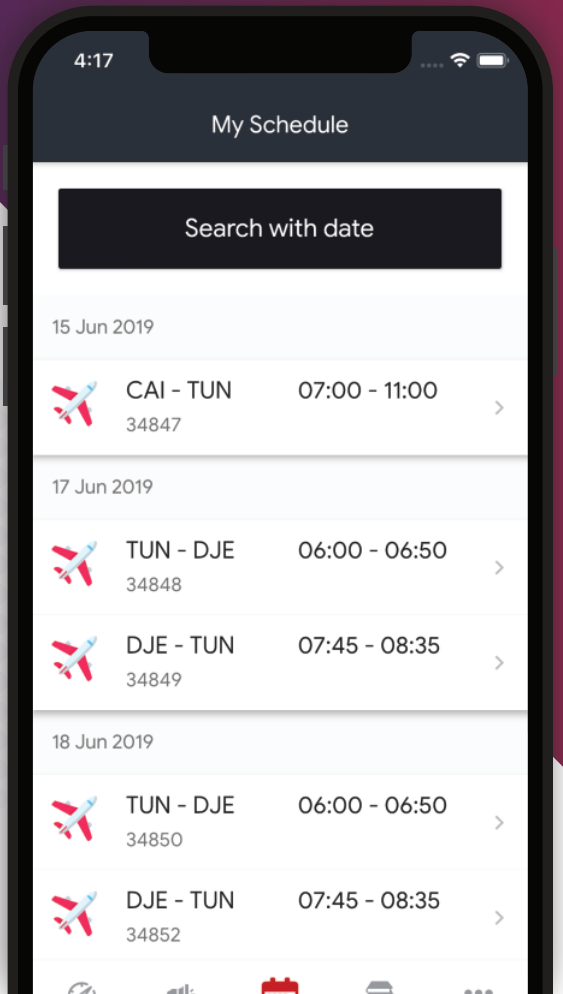
Web System

for admins

- System admins can send direct announcements to specific company department(s)/group(s) or to all company employees.
- Our iFlights Web System keeps track (and sends reports to admins) of all users who opened/read each announcement.

Fixed Wing Schedule

The users that can view this schedule are as follow:
-Fixed wing Pilots
-Cabin Crew
-Company Employee

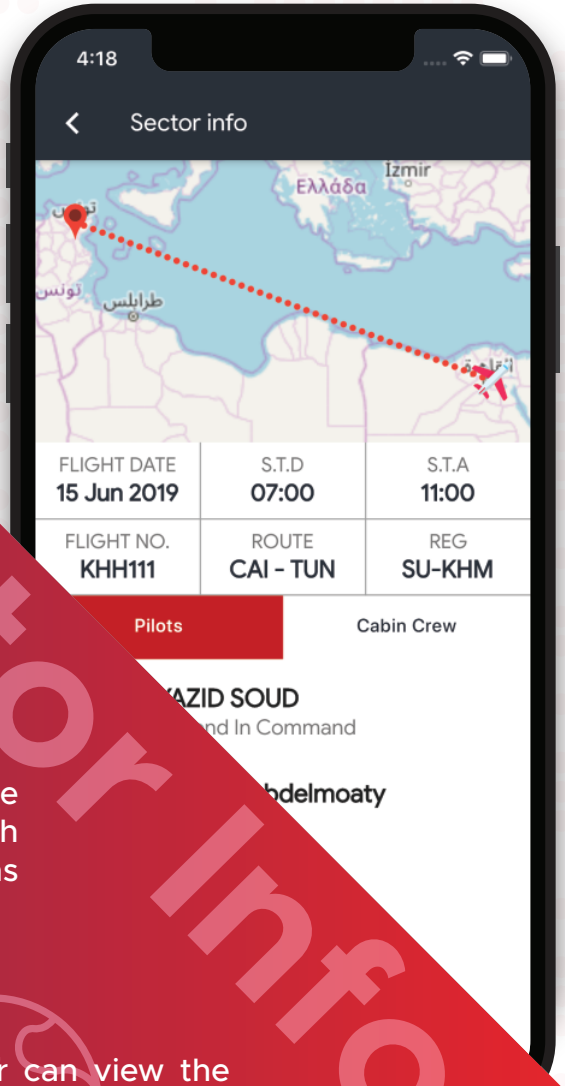


Every Pilot, cabin crew can view their rosters accordingly.

Every Pilot, cabin crew can see their destinations with aligned dates.

My iFlights app notifies you of any upcoming sector automatically.

Sector Info

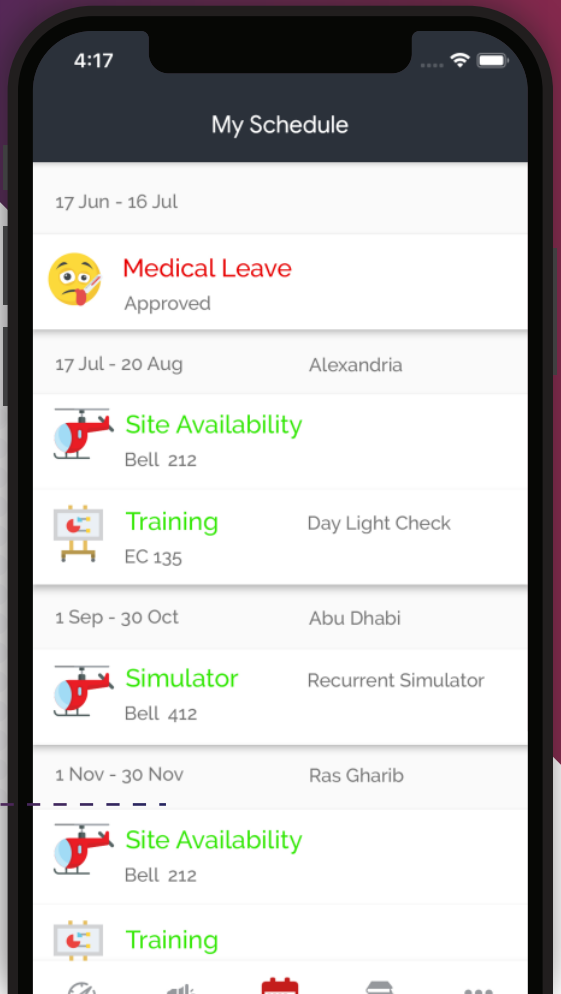


The user can view the cockpit and cabin crew with their respective positions on that specific sector.

The user can view the sector route(from-to) graphically on the map.

The user can see the STD(Standard Time of Departial) and STA(Standard time of arrival)

Helicopter Schedule



Schedule

Pilots can see their schedule for each period and its details:

- Availability/Training/Simulation
- Medical/Annual Leave
- Aircraft Type for each date
- Location/Region
